 <SUBJECT>Dominion Energy Virtual Meeting too Limited not a fair hearing for the public.</SUBJECT>
 <MSG>

I have received Notice of a Virtual Public Night Hearing. On August 14, 2020 Dominion Energy filed a application with the Public Service Commission requesting certain Proposed adjustments, changes, and increases in its rates and charges and tariffs for retail electric service with an effective filing date of August 15, 2020. Dominion Energy having full knowledge of the COVID Pandemic filed for public hearing know full well that this would limit the number of people who could object to this increase of 178 million dollars. Due to the COVID pandemic many of my neighbors lost their jobs and the had to reduce their expenses and internet services were one of many non essential services that had to go. Other like myself still have internet but are not equipped to attend the hearing because we do not have the camera and mic required. I regularly attend public hearings in person. I think this Virtual Hearing give Dominion Energy an unfair advantage and want it postponed until a Regular Public Hearing can be held. COVID has stopped people from working and put unfortunate stresses on the public. It Corporation need to have to follow the same rules as the Public and wait for regular services to resume before a Public Hearing can be held. I am asking that the Govenors office require Dominion Energy to postpone this hearing until it can be held in a public forum. A Virtual Hearing is not in the interest or fair to the Public.
